Method of knowing Salat-time changed from looking at horizon sliver line or length of shadows or watching sunset to using watches & clocks. Since moon sighting is a METHOD to decide the start of Ramadan and Eid: 500+ million Muslims in Malaysia, Indonesia, Turkey, Western Europe & USA are using moon birth method to decide when Ramadan & Eid start. If new moon is born before 12 noon GMT, next day is Ramadan or Eid and, if new moon is born after 12 noon GMT, Ramadan & Eid is the day after tomorrow. Do you agree for Solihull to follow moon birth through calculation?
